

RRC's Short Courses

RRC's Short Courses are designed for In-Company delivery. They can be adapted to meet the specific requirements of your organisation and can be delivered in many languages. Below is a summary of the general course content and aims. Contact us if you would like to discuss any adaptations that would benefit your organisation.

Introduction to HAZOP - Course Summary

RRC's Introduction to HAZOP Short Course provides an overview of the process of Hazard and Operability Studies. This course will provide an oversight into the process and where HAZOPs can be used in the workplace.

It is ideal for:

- Safety Professionals
- Engineers and other team members who may participate in a HAZOP

Course Aims and Objectives

The **RRC Introduction to HAZOP Short Course** is designed to cover the following topics:

- Understanding the outlines of a HAZOP process
- Determining the appropriate team members to participate
- Understanding the basic HAZOP methodology including the recording format used
- Use of practical examples

Course Duration

1 Day (8 Hours)
